Dynamic Transformation Strategies

WORKSHOP DESCRIPTION

Discover Team Intelligence: Using Multiple Intelligences for Team Building

Presenter - Constant Hine

This workshop introduces how to use Howard Gardner's theory of Multiple Intelligences as an approach to help people understand and acknowledge their own strengths while at the same time learning to respect and hopefully leverage the differing strengths of others to strengthen teams. Individuals will learn the importance of "Know Thyself" to identify their strengths and how strengths can create leadership and teaching biases that can impair team building and supporting staff.

Participants will also learn Five Team Building Basics that outline the foundations needed to better honor diversity in teams. Specific examples will be presented to promote the intentional choice of effective strategies that engage and include ALL team members.
